eeNews Embedded
Embedded Newsletter
February 28, 2018

Wherever you are, stay informed!

TOP NEWS

- Automotive Ethernet testing suite ensures standards-compliance
- Design win: Samsung Gear Fit 2 Pro connects water-resistant pressure sensor from ST
- BrainChip supplies neural network card to European car maker
- IAR Systems & Secure Thing collaborate on IoT security

TECHNICAL PAPERS

- Security for the IoT
- Corvus: More Power to Zigbee 3.0, Wi-Fi, Zigbee and Thread 'smashed'
- Meritor Graphics: Design reuse for PCBs

EVENTS

- Design for Healthcare Seminar, by ADC London, 7th November
- ProElectronica, Munich 14th - 15th November 2017

PRODUCTS

- Pressure sensor evaluation kit uses Arduino format - in distribution
- Dual-band Wi-Fi + Bluetooth radio module - throughput & low power
- LynxBasic: hypervisor now at v. 0.5, runs on ARM v8 architecture
- Power analyzer checks out switch-mode supply performance

Level VI External Power Supplies
One of the selected products of our most "green" external AC-DC power solutions from 3 to 220 Watts

First Nucleo-64 board with STM8 8-bit MCU
STM8 Nucleo Board features Arduino-like connectors for expansion

Real-Time Clock RV-3028-C7
Power consumption: 80 nA
Power backup switch
Accuracy: ±1 ppm @ 25°C

NEWS

- STMicro and Bosch partner on MEMS-based IoT
- Design Partner Program targets Life-based IoT
- STM8 Nucleo boards feature Arduino-like connectors for expansion
- Bluetooth 5 SP module for easier connectivity

BREAKING NEWS eeNewsletters

- Reverse and CleanEnergy chosen for multi-display design
- Replacing green screens with AR
- MAIP: EMACON PFC-CW Lowers 4x TIA REACT-31499
- Demonstration of 200G and 400G optical modules at ECOC 2018
- Partnership formed to mark an next-generation of PAIR additive manufacturing
- Quicker development of low-power location trackers

INTERVIEW

Synthetic data sets boost AI
With synthetic data, Autodesk-based AI startup researchers propose to make organized data sets a breeze to access for AI training, with powerful analytics and built-in references.

READER OFFER

Online, Print, Digital, Videos, Newsletters

eeNews Embedded a new member in the eeNews family builds on the strength of eeDesign (formally EDN Europe) to offer advertisers a premium media to reach the pan-European community of design engineers working on Embedded projects. With a total circulation of 52,508 of which 20,162 are print it is the largest Embedded publication in Europe.

The editorial focus is on Embedded hardware and software including RTOS dedicated to avionics and automotive and development tools. Also part of the editorial mix are IoT (Internet of Things) Industrial IoT, smart power, as well as electronics modules and board level computers. The publication combines the important aspects of technical information about Embedded Computing with Technical Know-How, new Products Trends and Applications.

eeNews Embedded brings a new focus on Embedded Systems both online with its

www.eeNewseembedded.com web site, a daily newsletter and a quarterly print and Digital magazine that will debut at the Embedded World exhibition in Nuremberg and will include the eeNews Embedded World show guide.

The pan-european circulation of over 52,508 (print + digital) will be increased to over 80,000 on the occasion of major exhibitions such as Embedded World and electronica 2020.

Readership includes engineering management and development as well as decision makers and prescribers.

The enhanced web site includes an exclusive Video channel dedicated to interviews, product presentations and highlights of stands at exhibitions. Special exhibition packages including display advertising, show guide presence and video are available.

Home Page

The screenshot shows the Home Page layout with several ad spots highlighted in yellow:

- Leaderboard 728 X 90**: Located at the top right of the page.
- Super Banner 940 x 170**: A large banner at the top of the main content area.
- IMU 300 X 250**: A square ad on the right side, above the 'MOST RECENT ARTICLES' section.
- VIDEO CHANNEL 300 X 250**: A square ad on the right side, below the 'MOST RECENT ARTICLES' section.
- IMU 300 X 250**: A square ad on the right side, below the 'MOST RECENT ARTICLES' section.
- Leaderboard 728 X 90**: Located at the bottom of the page.

Content Pages

The screenshot shows a Content Page layout with several ad spots highlighted in yellow:

- Leaderboard 728 X 90**: Located at the top right of the page.
- Super Banner 940 x 170**: A large banner at the top of the main content area.
- Skyscraper 160 X 600**: A vertical ad on the left side of the article.
- IMU 300 X 250**: A square ad on the right side, above the 'MOST RECENT ARTICLES' section.
- DOUBLE IMU 300 X 600**: A rectangular ad on the right side, below the 'MOST RECENT ARTICLES' section.
- IMU 300 X 250**: A square ad on the right side, below the 'MOST RECENT ARTICLES' section.
- Leaderboard 728 X 90**: Located at the bottom of the page.

Creative Deadlines

- GIF, JPEG – Five business days prior to start date
- HTML5 – Five business days prior to start date
- Maximum File Size : 60k

Submission Guidelines

- Send all creative to : adops@electronicseurope.net
- Linking URL must be submitted with creative

Banner Advertising Rates

eeNewsEmbedded is a key information source for engineers and technical managers in Europe. We report news as it happens, then follow up with insightful analysis and opinion on why and how it will affect your business.

eeNewsEmbedded has ± 30,000 PIs/month by ±14,000 unique visitors

Rates:

- Super Banner 940 x 170 CPM: 150 €
- Leaderboard 728 x 90 CPM: 120 €
- Skyscraper 160 x 600 CPM: 100 €
- IMU 300 x 250 CPM: 100 €
- Double IMU 300 x 600 CPM: 150 €
- Twig 1024 x 90 CPM: 150 €
- Wall paper CPM: 250 €

All banners are available on a Cost Per Thousand (CPM) basis:

- Video hosting per month: 1000 €

LEADERBOARD 728 x 90

Dimensions: 728 x 90
 File Size: 60K or less
 Loop Limit: 5 Loop Limit
 Formats: GIF, JPEG, HTML5
 Alt Text: Cannot exceed 70 characters

SKYSCRAPER 160 x 600

Dimensions: 160 x 600
 File Size: 60K or less
 Loop Limit: 5 Loop Limit
 Formats: GIF, JPEG, HTML5
 Alt Text: Cannot exceed 70 characters

IMU (BOOMBOX) 300 x 250

Dimensions: 300 x 250
 File Size: 60K or less
 Loop Limit: 5 Loop Limit
 Formats: GIF, JPEG, HTML5
 Alt Text: Cannot exceed 70 characters

SUPER BANNER 940 x 170

Dimensions: 940 x 170
 File Size: 60K or less
 Loop Limit: 5 Loop Limit
 Formats: GIF, JPEG, HTML5
 Alt Text: Cannot exceed 70 characters

Video channel

The video ads are a new interactive way of promoting new products, presence at shows and a perfect way for broadcasting interviews of CEOs, CTOs project managers etc. The attractive video content is hosted on our eeNewsEmbedded site as well as on our dedicated Embedded youtube video channel to maximise SEO and traffic.

Reach: home page, youtube, newsletters
 Material: youtube compatible formats

Hosting of your own videos:
 1000 € /month
 Interview at the show: 1500€ /month
 Package of full page ad + Logo + video: 6000€

Wall Paper

The wall paper ad format is ideal for branding campaigns as it dominates the entire screen and stays in the background while visitors read content and move from page to page. In addition to a large size background image, the ad provides ample space for advertising messages and call for action. Any click anywhere in the background leads the user to the advertiser site.

Reach : Surrounds all pages and cannot be closed.
 Material:
 Width: 1490 pixels
 Height: 1200 pixels
 Useful space:
 - Top: 1490 x 180pixels
 - Columns (2) 260 x 1020 pixels
 - Center (empty - white): 970 x infinite
 URL Link
 CPM Rate: 250€
 Technical fee per one additional creative: 250€

eeNews Embedded newsletters reach over ±32,000 Embedded Design engineers

The eeNews Embedded newsletters reach over ±32,000 subscribers in Europe. Qualified subscribers have opted to receive this unique newsletter providing up to date information on what's going on in the embedded field.

- Each issue of the newsletter contains the following items:
- Lead story of the day
 - Embedded Design News
 - Business News
 - MPU and development tools
 - Embedded Consumer Design
 - Communications
 - Automotive

Also included are top new products of the day and new White Papers available for download. Three advertising formats are available:

- Leaderboards
- IMU
- Text Banner

Leaderboard 728 x 90 pixels

The Leaderboard

The large graphics format allows advertisers to dominate the page and create a powerful message.

Rates:

1x	: 1,200 €
3x	: 1,120 €
5x	: 1,050 €
10x	: 1,000 €

1 week (5 consecutive days) : 4,000 €

IMU
300 x 250 pixels

The IMU

The large graphics format surrounded by editorial content allows advertisers to interact with readers and create a powerful message.

Rates:

1x	: 1,200 €
3x	: 1,120 €
5x	: 1,050 €
10x	: 1,000 €

1 week (5 consecutive days) : 4,000 €

Text Banner up to 200 characters + optional picture 140 x 120

The Text Banner

The text banner provides a more subtle editorial like presence and is ideal for promoting seminars, shows, events and products that do not justify the development costs of elaborate graphics.

Rates:

1x	: 750 €
3x	: 700 €
5x	: 650 €

1 week (5 consecutive days) : 2,000 €

Guidelines to book HTML/HTML5 banners

- When booking an HTML banner in ADTECH IQ, do not build the basic structure of an HTML file (the elements html, head, title, body etc.). The banner will almost always be delivered within a TAG that is part of the website with an existing HTML file structure.
- Put all necessary scripts within the index.html file (root directory).
- Put all files into the root directory, do not use a folder structure.
- Use unique identifiers, classes, variables and function names per banner.
- Use adserver variables only within the index.html file. The adserver will not replace adserver variables within .js files, additional HTML files or any other file types.
- Adserver variables are used for example to count clicks or to define the correct path to images.
- One option for linked files could be to store the necessary files on a server and to use the absolute path.

HTML banner code example with adserver variables

```
<a href="_ADCLICK_http://www.aol.com" target="_blank"></a>
```

Charset settings for HTML/HTML5 banners

When booking an HTML banner in ADTECH as index.html file the default Charset is set to UTF-8 and should not be changed, unless the website delivering the banner is using a different charset code. Available charset options are:

- UTF-16
- UTF-8
- US-ASCII
- ISO08859-1
- ISO08859-2
- ISO08859-3
