

EUROPE

Content Sponsorship

Content sponsorship on the eeNews Europe web site networks helps create reader affinity and can also generate leads.

The eeNews network generates over 300,000 qualified Page Impressions from all over Europe.

How it works for you:

Sponsored content is posted in the center column on top of the various channel sites, next to the newest editorial items and offers maximum visibility.

The sponsorship is offered on a CPM basis and can optionally be used as a lead generation vehicle.

Material requirement:

All that is needed is a regular press release of about 400 to 600 words and a good quality illustration. The article is set by eeNews Europe and a preview is sent before the article goes live.

Up to 5 links can be integrated into the article to connect to the manufacturer's website or link to a data sheet, a video or webinar.

Promotion

The sponsored content will be promoted via eeNews Daily newsletter circulated to over 60,000 subscribers.

Social Networks

The article will also be promoted via eeNews Europe's Social network channels on Twitter and Facebook.
